

Ahmed El Oualkadi received Ph.D. degree in Electronics from the University of Poitiers, France, in 2004. From 2000 to 2003, he was a research assistant in the Laboratoire d'Automatique et d'Informatique Industrielle - Ecole Supérieure d'Ingénieurs de Poitiers, Electronics & Electrostatics Research Unit, University of Poitiers, France. In 2004, he was an assistant professor at University Institute of Technology, Angoulême, France. During this period, he worked, in collaboration with EADS-TELECOM, on various European projects which concern the nonlinear analysis & RF circuit design of switched- capacitor filters for radio-communication systems. In 2005, he joined the Université Catholique de Louvain, Microelectronics Laboratory, Louvain-la-Neuve, Belgium, as a research fellow where he worked on the analog and mixed design of low power high temperature circuits and systems, in SOI technology, for wireless communication. During this period, he has managed and participated in several European and regional projects in the areas of wireless communication and sensor networking. Currently, he is an associate professor in the Abdelmalek Essaadi University, National school of applied sciences of Tangier, Morocco. His main research interest is the analog IC, mixed-signal, RFIC and MMIC design for wireless communication, embedded system applications and information technology. He has authored or co-authored more than 60 papers in recognized journals and international conferences. He was the editor of the book "Filtres Agiles pour les Systèmes Radiomobiles Reconfigurables : cas des filtres à capacités commutées à très fort facteur de qualité", EUE 2011 and the author of three book chapters. He is a member of European Microwave Association (EuMA), IEEE Circuits & Systems Society, IEEE Electron Devices Society and IEEE Communications Society. He was involved in numerous organizing and scientific committees of international symposia and conferences and he served as a referee of several IEEE journals and other indexed international journals. He is a member of the scientific and technical committee of WCECS and WASET. Editorial board member of: Recent Patents on Electrical Engineering Journal (during 2007-2011), Journal of Multimedia Processing and Technologies and International Journal of Organizational Leadership.
